

# NEOS 2019

## mini conference

### KEYNOTE

Chris will present a visual account of the Royal Alberta Museum's \$375M redevelopment as it relocated from its home in Edmonton's Glenora neighbourhood, where it opened in 1967, to its grand re-opening in Edmonton's Arts District in 2018.

#NEOSmini2019

## FULL LENGTH TALKS

### **An Investigation of the Privacy of Library Users**

Julia Martyniuk, Trish Chatterley

This session will outline preliminary findings from an investigation of the privacy of library patrons, specifically focusing on privacy issues related to vendors' provision of electronic products, and how the forthcoming trend away from IP-based authentication is going to affect patron privacy.

### **Student Success and the Library's Hidden Gem**

Kieren Bailey

This presentation will discuss using research consultations as part of an embedded library instruction program. There will be time for open discussion on research consultations trends at your library.

### **We Did It and You Can Too: A Responsive 3D Printing Service story**

Martina King, Maryam Bidhendi

Following in the footsteps of others can have its advantages, we certainly thought so! MacEwan University Library will share our experience launching a 3D printing service, responding to challenges, and our plans to transition from a fully mediated to a mostly self-serve service model.

### **Out of the Pot and into the Fire: From Brief Orientation to Providing Information Literacy Instruction**

Karina Dunn

A recent MLIS graduate takes you on her IL journey from brief library tour to embedded librarianship. She attempted to revolutionize the Library orientation at her college into information literacy instruction and ended up embedding librarianship in the classroom. These are the lessons she's learning along the way.

### **Reports Ride-Along: A Journey Through the Invisible, Intricate World of ILS Reports**

Scott Davies

Climb aboard, if you dare! In this session, we will journey through one full day in the life of the complex web of automated tasks that keep our library system running smoothly, both at the desk and under the hood. Expect to be amazed and informed!

### **What's all the hoopla about?**

Ngina wa Kaai, Lorisia MacLeod

What do digital resources, students learning English, and a smartphone have in common? NorQuest College Library is proud to present the answer in this session.

### **Canadian Cohort: Moving Towards Linked Data Implementation at UAL**

Ian Bigelow

UAL is moving forward with linked data implementation. This session will outline the participation of UAL in the LD4P Cohort and related projects, with a particular focus on considerations for NEOS.

## LIGHTNING TALKS 1

### **Presenting the NEOS Guidelines for E-Resource Cataloguing**

Amanda Nagyl, Fairfax Culpepper, Michael Betmanis

### **Linguistic Data on Demand**

John Huck, Anna Bombak

## LIGHTNING TALKS 2

### **My First Year as a Solo Librarian: Solo Academic Librarianship in the Context of the St. Joseph's College Library**

Hailey Siracky

### **More than Personal Communication: A Citation Template for Indigenous Elders and Knowledge Keepers**

Lorisia MacLeod

## LIGHTNING TALKS 3

### **MacEwan Kindness Project**

Michelle Bezenar ; Sydney Bennell

### **Diversity and Representation in Library Collections**

Carolyn Carpan
