What

is this session about?

Overview of guidelines developed for NEOS library cataloguers related to the cataloguing of non-serial e-resources

Time for questions and feedback about the document

Why

were these guidelines
developed?

Create a document of common
practice for the cataloguing of
e-resources across NEOS

Consistency in practice enables
more efficient bulk management of
records

What: are the main components in a record that enable better record management?

How: are these main components used in day to day bulk loading work?

Title control number

Used as match point for record identification.

MARC field 856 subfields 3 and z

Specifies NEOS library and publisher/vendor characteristics of url

Item cat2

Used to identify the publisher/vendor of a particular holding
